The motet for the motto of the year 2018. Here in the version for a 4 part choir and piano.

Versions for a 4 part a-capella choir intended for singing guitar as well as for violoncello and piano are also available on this website.

For the choral versions one should know: At the beginning of the motet the lower three voices belong extremely close together. They symbolize the Trinity (i. e. the inseparable communion of Father, Son and Holy Spirit), which is always present in the background, whether God is looked upon as Father in heaven, Jesus Christ or the Holy Spirit. At the part of the text that deals with the source of living water, the choral movement becomes more vivid, because musically this source of living water is now being observed.
