Composition technique is a kind of reappraisal of early music with new sound texture.

Inspired by the current difficult times of quarantine, where I and certainly several others miss the faith meeting. By listening to the mp3s or by playing or singing this work, I want to find inner peace in faith, love and hope, now at home and later soon in the church.

It is the second composition as church music, the first was for solo harmonica Song of Pity and Longing.

It is also the second organ composition, the first one was B.A.C.H. 14 years ago which was performed in Cologne Philharmonic Hall
